Restharrow Scrape Development Project

Feedback from zoom meetings

Dear Ken & Becky

As mentioned last night, I am willing to host some of SBBOT's Zoom events, as I have done so for the Kent group of the Hardy Plant Society during the last year. (I learned how to do it from watching Becky, for which my very grateful thanks.)

Becky, I really enjoyed your talk last night. I can't believe how much you've achieved, and especially given the circumstances of the last eighteen months, you should be incredibly proud of yourself. It was fascinating to see all the areas you've had to tackle, and the research behind it all, and how creative you've been in coming up with things.

Many thanks for all your hard work from those of us at a distance from SBBO, for sorting out the Zoom programme and setting up and running so many talks. Well done!

Best wishes

Jenny

Dear John,

I just want to thank you (and everyone involved) so much for the wonderful series of courses and talks that you've given us over the last few months. They've all been so interesting and absorbing and have made a huge difference to what would otherwise have been a rather dull winter. It's been great to see you and other friends on screen and to get to know the team at Sandwich Bay. I've been a member for a few years but feel much more part of things now. I thought Steffan gave an outstanding talk and Becky has been a delight throughout.

Charmian
