

Making Space For Nature - Opportunities to benefit from “Environmental Mitigation and Biodiversity Net Gain” in the Planning Process

Join the discussion at **7.30pm on Tuesday 18th November** at the Observatory Field Centre, Guildford Road, Sandwich Bay CT13 9PF <https://sbbot.org.uk/how-to-find-us/>

Guest Speakers: Vicky Ellis (CPRE Kent) and Ross Johnson (Kent Wildlife Trust)

What is Biodiversity Net Gain and what are the legal requirements of Biodiversity Net Gain for developers?

How can we impact on the planning process?

How can we suggest additional pieces of land to be purchased for environmental offset?

What are other organisations doing?

What evidence can support objections or proposals for offset land?

What have been the learnings from the recent Sea Link (National Grid) and Betteshanger development applications?

SBBOT Members and other interested parties from environmental organisations and the general public are all welcome
